

Home-Based Care: From Burden to Opportunity- A Feminist Agenda

March 6 12pm 10th Floor Church Center
Commission on the Status of Women
NGO Parallel Event

Unequal responsibility of care in the context of HIV/AIDS is a negative consequence that women and young girls bear due to gender-specific roles.

The Huairou Commission invites you to join us to enrich our discussion between:

- **Feminists** concerned about the affects of the burden of care
- **Caregivers** who have been motivated by love and concern for community, necessity or both.

This space will allow activists working to end women's inequality from the global level and grassroots women who deal with inequality daily and whose experiences can inform and guide global activism.

The discussion will allow the two groups to find common ground and areas where they might work together.

This session will be held in both English and Spanish.
